Raffia Grass

Natural Texture That Brings Warmth to Interior Spaces

Raffia Grass is a natural fiber material crafted from raffia palm leaves, valued for its distinctive woven texture and organic character. Its soft, natural tones create a warm and relaxing atmosphere while bringing a sense of connection to nature indoors.

Lightweight and flexible, Raffia Grass adapts beautifully to both flat and gently curved surfaces, making it ideal for interior applications with refined details. Whether used on walls, ceilings, or furniture panels, it introduces depth and texture while celebrating the authentic beauty of natural craftsmanship.

Key Features

- Made from 100% natural raffia fibers
- Lightweight and easy to install
- Finely woven surface with natural character
- Flexible and suitable for gentle curves
- Adds warmth and texture to interior spaces
- Environmentally friendly and 100% biodegradable

Recommended Applications

- Feature walls
- Ceiling finishes
- Cabinet and furniture surfaces
- Headboard walls

Considerations

- Recommended for interior use only
- Avoid installation in damp or high-humidity areas
- Best installed in dry and well-ventilated environments

Note

As a natural material, slight variations in tone, texture, and weaving pattern may occur between pieces. These variations are not imperfections, but part of the material's unique character and handcrafted appeal.
